

Meta-Majors: Pathways to Success

A meta-major is:

An academic pathway for programs and degrees with similar General Education requirements that lead to similar careers.

Benefit of a meta-major:

Provides students a group of General Education courses to take until they choose a major. Once a major is chosen, students follow the degree plan for the major.

Select a meta-major:

- After Orientation, tell the advisor which meta-major interests you most.
- Take the recommended courses.
- Attend a Career Discovery workshop.
- Select a transfer major as soon as you can.

The eight meta-majors are:

Arts, humanities, communication and design
Business
Education
Health sciences
Industry/manufacturing and construction
Public safety
Science, technology, engineering, and mathematics
Social and behavioral sciences and human services
